

ReactJS HOL 5

Styling React Components Using CSS Modules

In this exercise, I worked on the **Cohort Tracker** React application. I created a CSS Module file named **CohortDetails.module.css** and applied the required styles to the cohort details component. I displayed each cohort inside a styled box and changed the heading color based on the current status of the cohort. After running the application, the cohort details were displayed with the expected styling and output.

Source Code

CohortDetails.module.css

```
.box {  
  width: 300px;  
  display: inline-block;  
  margin: 10px;  
  padding: 10px 20px;  
  border: 1px solid black;  
  border-radius: 10px;}  
  
dt {  
  font-weight: 500;  
}
```

CohortDetails.js

```
import styles from "./CohortDetails.module.css";  
  
function CohortDetails(props) {  
  const headingStyle = {  
    color: props.cohort.currentStatus === "Ongoing" ? "green" : "blue";  
  }  
  return (  
    <div className={styles.box}>  
      <h3 style={headingStyle}>
```

```

        {props.cohort.cohortCode} -
        <span>{props.cohort.technology}</span>
    </h3>
    <dl>
        <dt>Started On</dt>
        <dd>{props.cohort.startDate}</dd>
        <dt>Current Status</dt>
        <dd>{props.cohort.currentStatus}</dd>
        <dt>Coach</dt>
        <dd>{props.cohort.coachName}</dd>
        <dt>Trainer</dt>
        <dd>{props.cohort.trainerName}</dd>
    </dl>
</div>

);
}

```

```
export default CohortDetails;
```

Result

The Cohort Tracker application was styled successfully using CSS Modules. The cohort details were displayed inside styled boxes with the required formatting, and the heading colors changed correctly based on the cohort status. The application ran successfully without any errors, and the expected output was displayed in the browser.
